ACADEMIC REGALIA

The present-day academic costume seemingly originated at Oxford and Cambridge Universities in the 1300s. As the universities passed from ecclesiastical control, brighter colors distinguished the academic robe from the drab clerical gown. Colonial American universities based their academic regalia on the British system.

In 1893, an intercollegiate commission established a uniform code for caps, gowns and hoods for the various degrees.

Black tassels are correct for all degrees, and colored tassels are worn only by preference. The doctor's cap and president's of universities or colleges may have tassels of gold thread. The tassel should be worn draped over the left front quarter of the cap.

The usual color for academic gowns in the United States is black. The bachelor's gown is worn closed; the master's and doctor's may be worn open or closed. The shape of the sleeve is the distinguishing mark of the gowns; bachelor, long pointed sleeves; master, oblong sleeves open at the wrist; doctor, bell-shaped with three velvet bars on each sleeve.

Of the costume's three components, the hood is the most interesting. Originally, it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were in vogue in Britain, the cape part of the hood was split in front and a narrow neckband inserted. The entire cape and hood was allowed to fall back as it is today, and it was never restored to the original style.

The hoods are lined with the color of the institution which awarded the degree to the wearer. The color of the border or collar of the hood designates the degree.

Following is a list of the hood and tassel colors established by the Intercollegiate Code to represent departments of learning:

STUDENT ACCOLADES

DANILLA COLLIN

Danilla Collin has earned her associate degree in psychology with a 4.0 GPA. At GCC, She is on the President's List, in the Phi Theta Kappa Honor Society, and a President's Scholarship recipient. Danilla will transfer to ASU in the fall as an All AZ Academic Scholar and participate in the Barrett Honors College. Her goal is to earn a doctorate degree in clinical psychology and conduct research to support Latinx adolescents. Danilla is motivated to do well as she juggles her identities as a Mexican-American, first-generation student who is the eldest daughter of parents that immigrated to the United States. She is serving as a student senator representing GCC in a district-wide leadership role and working on campus as a Peer Success Coach. During the pandemic Danilla felt disconnected; she is glad to be on campus because it gives her a sense of belonging and a home away from home. As a Peer Success Coach, she enjoys seeing the growth within students and the connections she has made to support others.

JENNIFER LIBBY

Jennifer Libby has earned her associate degree in Nursing with a 3.7 GPA. Her next goal is to pass her licensure, and will continue to help the Nursing students at GCC as a way to give forward to her community. Jennifer has wanted to be a nurse since she won her battle against childhood cancer. She was inspired by the nurses that provided support to help get her through the chemotherapy treatments, surgeries, and countless days in the hospital. Jennifer always found time to help other students. She tutored and mentored several students with their math, nursing concepts, and skills. Several of the students that Jennifer has worked with shared that she is so easy to talk to, and clarifies topics they didn't understand. She has humility, kindness, and an open mind, all characteristics that are needed in a Nurse to provide the best patient care. Jennifer has always strived to be the best version of herself and embodies the motto "GCC cares."

LUCAS PRICE

Lucas Price has earned his Associate in Arts degree with an Emphasis in English, specifically Creative Writing with a 4.0 GPA. He plans to transfer to ASU, however he is planning to take a few more courses at GCC that interest him. He plans to pursue a career as a writer hoping to write fictional novels. He would like to tell his stories in other mediums such as in an animated series or in video games. While at GCC, Lucas was a member of the Creative Writing Club. Lucas enjoyed the more open atmosphere of GCC compared to K-12 schools. Because of the sense of equality at GCC, he felt less insecure about his Autism, which allowed him to flourish in his classes. Lucas' mom also attended GCC.
